Important Notes:

You are recommended to read the product summary and seek advice from a qualified Prudential Financial Consultant for a financial analysis before purchasing a policy suitable to meet your needs.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

Buying health insurance products that are not suitable for you may impact your ability to finance your future healthcare needs. Before replacing an existing accident and health policy with a new one, you should consider whether the switch is detrimental, as there may be potential disadvantages with switching and the new policy may cost more or have fewer benefits at the same cost.

Premiums for some of the products are not guaranteed and may be adjusted based on future claims experience. Prudential reserves the right to vary premiums at any time by giving 30 days' written notice to the policyowner before doing so. Premium rates will be based on age next birthday (for the first premium) on the cover start date and each policy anniversary date (for renewable premium).

PRUVantage Assure and **PRUVantage Wealth** are Investment-Linked Plans (ILP) which invest in ILP sub-fund(s). Investment products are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund(s) is not guaranteed and the value of the units and the income accruing to the units (if any) may fall or rise. Past performance is not necessarily indicative of future performance.

A product summary and product highlights sheet(s) relating to the ILP sub-fund(s) are available and may be obtained from your Prudential Financial Consultant. A potential investor should read the product summary and product highlights sheet(s) before deciding whether to subscribe for units in the ILP sub-fund(s).
