PRUActive Saver

Every dream has its date.
Choose an insurance savings
plan that matches yours.

We all have goals to achieve during the different seasons of our lives. It can be your child's education, a new home, or to fund your retirement plans. Whatever goals you set, **PRUActive Saver** lets you customise your insurance savings plan to help you achieve your goals. You can now choose how much savings you want to set aside every month, how long you want to save for, and exactly when you want your maturity payout to be*.

PRUActive Saver is an insurance savings plan that allows you to save small amounts for a long period or large amounts for a shorter duration, depending on your life stage and your savings needs.

Key Benefits*

Choose your premium payment term

Based on your life stage, you have the option to choose between single premium term or regular premium payment term from 5 to 30 years.

Customise your plan's policy term

Depending on your goals, you can customise your plan's policy term from 10 to 30 years. You'll get to receive your maturity payout exactly when you need it.

Grow your savings and get a lump sum maturity payout

Let us help you grow your savings with competitive maturity yields. You can enjoy a lump sum maturity payout when your plan matures.

Hassle free application

[#]Medical underwriting will be required for the addition of riders. Addition of riders is not applicable for Single Premium policies.

How PRUActive Saver works:

Example:

Sam, 35, dreams of sending his daughter, now 3, abroad for her university education. To work towards this milestone, he decides to set aside S\$934** monthly for 9 years. He wants to stop paying for his premiums when his daughter enters secondary school to focus on other financial commitments. Sam will receive S\$151,066⁺ to send his daughter to university when she turns 19. That's a 16-year plan – fully customised to his needs.

⁺ The illustrated values use bonus rates assuming an illustrated investment rate of 4.75% p.a.

As bonus rates are not guaranteed, the actual benefits payable will vary according to the future performance of the participating fund. At 3.25% p.a. illustrated investment rate of return, the maturity value is \$130,608.

**Premium amounts shown are rounded off to the nearest dollar.

Important Notes:

You are recommended to read the product summary and seek advice from a qualified Prudential Financial Consultant for a financial analysis before purchasing a policy suitable to meet your needs.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.
