Footnotes:

- 1 Any death benefit/maturity payment will less any outstanding amounts owed to us in connection with the policy.
- 2 Subject to underwriting.
- 3 Face value is a notional value used to determine the Reversionary Bonuses (non-guaranteed) and the maturity benefit. It is not the sum assured of the policy.
- 4 Premium quoted is based on a non-smoking female, age 30 next birthday with PRUsave max limited pay (USD) plan (15/20 year payment term) with a face value of US\$55,000.
- 5 The illustrated values use bonus rates assuming an illustrated investment rate of 5.25% p.a. As bonus rates are not guaranteed, the actual benefits payable will vary according to the future performance of the participating fund. At 3.75% p.a. illustrated investment rate of return, the Non-Guaranteed is US\$31,611 and the Maturity Amount is US\$86,611.

Note:

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

Buying health insurance products that are not suitable for you may impact your ability to finance your future healthcare needs. Premiums for some of the supplementary benefits are not guaranteed and may be adjusted based on future claims experience.

You are recommended to seek advice from a qualified Prudential Financial Consultant for a financial analysis before purchasing a policy suitable to meet your needs.
