Important Notes:

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

Buying health insurance products that are not suitable for you may impact your ability to finance your future healthcare needs. Investment products are subject to investment risks including the possible loss of the principal amount invested.

The value of the units and the income accruing to the units (if any) may fall or rise. Premiums for some of the supplementary benefits are not guaranteed and may be adjusted based on future claims experience.

You are recommended to read the policy documents and to seek advice from a qualified Prudential Financial Consultant for a financial analysis before purchasing a policy suitable to meet your needs.
