**#Past performance is not indicative of future results.** Performance calculation are based on a single pricing basis, include the change in Net Asset Value and reinvestment of any distributions paid on Portfolio shares for the period shown, net of assumed front-end load (FEL) 4% for Class A/AD shares. For Class A/AD shares, maximum front-end load (FEL): Up to 5%. Accordingly, these figures do not represent actual returns to an investor. Performance quoted in currencies other than the base currency of the Portfolio is calculated by converting the daily Net Asset Value of the Portfolio using a spot foreign exchange rate of the other offered currency on each valuation point. Returns denominated in a currency other than that of the fund may increase or decrease as a result of foreign exchange currency fluctuations. The information on this page is for informational purposes only and should not be construed as an offer to sell, or solicitation of an offer to buy, or a recommendation for the securities of the Portfolio.

<sup>1</sup> The Portfolio is part of AB FCP I (referred to as "AB"). AB is a mutual investment fund (fonds commun de placement) organized under the laws of the Grand Duchy of Luxembourg. Prior to 5 February 2016, AB's legal name was ACMBernstein, its trading name was AllianceBernstein.

<sup>^</sup> Net Asset Value is denominated in the share class currency.

Where applicable, stand-alone currency symbols represent convenience pricing, which offers the ability to purchase or redeem shares using the currency indicated, which is then converted into the base currency of the portfolio using a market rate at the time of purchase or redemption. Convenience pricing involves no currency hedging and does not seek to provide any protection from currency fluctuations.

Currency-hedged share classes use hedging techniques in an attempt to reduce—but not eliminate fluctuations between the investor's holdings in a particular currency-hedged share class denominated in the investor's investing currency and the portfolio's base currency. The goal is to deliver returns that track the portfolio's base currency returns more closely.

**Investment in the Fund entails certain risks.** Investment returns and principal value of the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The Fund is meant as a vehicle for diversification and does not represent a complete investment program. Some of the principal risks of investing in the Fund include country risk, emerging markets risk, currency risk, illiquid assets risk, portfolio turnover risk, management risk, industry/sector risk, derivatives risk, borrowing risk, taxation risk and equity securities risk. These and other risks are described in the Fund's prospectus. The Portfolio is entitled to use derivative instruments for hedging and/ or EPM purposes which may involve additional risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. Prospective investors should read the prospectus and Product Highlights Sheet carefully and discuss risk and the fund's fees and charges with their financial adviser to determine if the investment is appropriate for them.
