Further Information

Refer to “Investment Objective, Policy and Strategy” of the Singapore Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- ▶ You are investing in a sub-fund of BlackRock Global Funds (“BGF”).
- ▶ BGF is an open-ended investment company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

Refer to “The Company” and “The Funds” of the Singapore Prospectus for further information on features of the product.

¹ The Prospectus is available for collection at the offices of the Singapore Representative during normal business hours or accessible at www.blackrock.com/sg.

- ▶ Non-Distributing Shares do not pay dividends whereas Distributing Shares pay dividends.
 - For Distributing (G), (R) and (S) Shares (if available): (i) dividends may come from capital of the Fund; (ii) this may reduce capital and the potential for capital growth of the Fund, and (iii) similar to other Distributing Shares, there is no guarantee of payout and the dividends may rise or fall.

Investment Strategy

- ▶ The Fund invests globally in equity, debt and short term securities, of both corporate and governmental issuers, with no prescribed limits. In normal market conditions the Fund will invest at least 70% of its total assets in the securities of corporate and governmental issuers. The Fund generally will seek to invest in securities that are, in the opinion of the Investment Adviser, undervalued. The Fund may also invest in the equity securities of small and emerging growth companies. The Fund may also invest a portion of its debt portfolio in high yield fixed income transferable securities. Currency exposure is flexibly managed.
- ▶ The Fund may invest directly up to 10% of its total assets in the PRC by investing via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect.
- ▶ With effect from 25 March 2019, the Fund may gain direct exposure for no more than 10% of its total assets to onshore bonds distributed in Mainland China in the China Interbank Bond Market via the Foreign Access Regime and/or Bond Connect and/or other means as may be permitted by the relevant regulations from time to time.
- ▶ As part of its investment objective the Fund may invest up to 20% of its total assets in ABS and MBS whether investment grade or not. These may include asset-backed commercial paper, collateralised debt obligations, collateralised mortgage obligations, commercial mortgage-backed securities, credit-linked notes, real estate mortgage investment conduits, residential mortgage-backed securities and synthetic collateralised debt obligations. The underlying assets of the ABS and MBS may include loans, leases or receivables (such as credit card debt, automobile loans and student loans in the case of ABS and commercial and residential mortgages originating from a regulated and authorised financial institution in the case of MBS). The ABS and MBS in which the Fund invests may use leverage to increase return to investors. Certain ABS may be structured by using a derivative such as a credit default swap or a basket of such derivatives to gain exposure to the performance of securities of various issuers without having to invest in the securities directly.
- ▶ The Fund's exposure to contingent convertible bonds is limited to 20% of total assets. With effect from 25 March 2019, the Fund's exposure to Distressed Securities is limited to 10% of its total assets.
- ▶ The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management.

Refer to "Investment Objective, Policy and Strategy" and "Use of Derivatives and Securities Lending" of the Singapore Prospectus for further information on investment strategy.

Parties Involved

WHO ARE YOU INVESTING WITH?

- ▶ The Management Company is BlackRock (Luxembourg) S.A.
- ▶ The Management Company has delegated its investment management function of the Fund to one or more investment advisers within the BlackRock Group (as listed in paragraph 3.2 of the Singapore Prospectus).
- ▶ The relevant investment adviser(s) may sub-delegate some of its/their functions to one or more sub-investment advisers within the BlackRock Group (as listed in paragraph 3.2 of the Singapore Prospectus).
- ▶ The Depositary is The Bank of New York Mellon SA/NV, Luxembourg Branch.
- ▶ The Singapore Representative is BlackRock (Singapore) Limited.
- ▶ The Fund's choice of counterparties for its derivative transactions is not restricted.

Refer to "The Company", "Management and Administration" and "Other Parties" of the Singapore Prospectus for further information on the role and responsibilities of these entities.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

The price of Shares of the Fund and any income from them may fall as well as rise.

These risk factors may cause you to lose some or all of your investment.

Refer to "Risk Factors" of the Singapore Prospectus for further information on risks of the product.

Market and Credit Risks

The Fund may be subject to Credit Risk of Issuers

- ▶ The Fund may be exposed to the credit/default risk of bonds that it invests in. In the event of bankruptcy or default of an issuer, the Fund may experience losses and incur costs.
- ▶ The actual or perceived downgrading of a rated debt security or its issuer could decrease the value and liquidity of the security, and may have an adverse impact on the Fund. However, the Fund may continue to hold it to avoid a distressed sale.

The Fund may be subject to Currency Risks

- ▶ Foreign currency exchange rate movements are likely to influence the returns to investors in Singapore, hence investors may be exposed to exchange rate risks.
- ▶ For Hedged Share Classes, while the Fund attempts to hedge currency risks, there can be no guarantee that it will be successful in doing so.

The Fund may be subject to Emerging Market Risks

- ▶ The Fund may invest in one or more emerging markets and may be subject to a higher than average volatility than investing in more developed markets due to greater political, tax, economic, social, foreign exchange, custodial, liquidity, regulatory or other risks.

Liquidity Risks

- ▶ Trading volumes in the underlying investments of the Fund may fluctuate significantly, due to factors including market development, market sentiment or regulatory/government intervention. An inability to readily sell investments at the desired time or price may negatively impact the Fund.
- ▶ Redemptions may be suspended in certain circumstances detailed in the Prospectus.

Product Specific Risks

The Fund may be subject to Derivatives Risks

- ▶ The use of derivatives may expose the Fund to a higher degree of risk. Derivative contracts can be highly volatile and a relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can hence increase the Fund's volatility. The Fund may sustain loss as a result of the failure of a derivatives counterparty to comply with the terms of the derivatives contract.

The Fund may be subject to Distressed Securities Risks

- ▶ The Fund may invest in securities issued by a company that is in financial difficulty or in default. This involves significant risk. There is no guarantee that any exchange offer or reorganisation will be successfully completed.

The Fund may be subject to Non-Investment Grade Bonds Risks

- ▶ The Fund may invest in non-investment grade bonds. This may subject the Fund to higher credit/default risks, volatility and liquidity risks than investment grade bonds.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Class A and Class D Shares for the previous dealing day may be obtained from the Singapore Representative or an appointed Singapore distributor and will also be published on www.blackrock.com.sg.

Refer to "Obtaining Price Information" and "Redemptions" of the Singapore Prospectus for further information on valuation and exiting from the product.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- ▶ The Fund does not offer a cancellation period to investors.
- ▶ You may request to redeem your shares on any Dealing Day which is a business day in Singapore.
- ▶ Redemption proceeds are determined as follows:
 - Redemption requests submitted through the Singapore Representative or appointed Singapore distributors and on-sent to the Investor Servicing Team by 6:00pm (Singapore time)³ on any Dealing Day which is a business day in Singapore, will be accepted for that day's dealing.
 - Redemption requests received by the Investor Servicing Team after this cut-off will be accepted for dealing on the next Dealing Day.
- ▶ An example of how the gross redemption proceeds are calculated is as follows:

"Dealing Day" means any Luxembourg business day on which the Fund is open for dealing.

1,000 Shares	X	USD1.50 ⁴	=	USD1,500
Redemption request		Net Asset Value per Share		Gross Redemption proceeds

- ▶ Redemption payments will normally be dispatched on the third Luxembourg business day after the relevant dealing day.
