PRODUCT SUITABILITY			
 WHO IS THE PRODUCT SUITABLE FOR? The Trust is <u>only</u> suitable for investors who: seek to achieve medium to long-term capital appreciation; are able to tolerate a degree of volatility of an equity fund. You should consult your financial adviser if in doubt whether this product is suitable for you. 	<u>Further Information</u> Refer to Sections 8.1 and 8.4 of the Prospectus for further information on product suitability.		
KEY PRODUCT FEATURES	,		
WHAT ARE YOU INVESTING IN? You are investing in a unit trust constituted in Singapore that aims to achieve medium to long-term capital appreciation by investing at least 70% of the Trust in securities issued by companies that are incorporated, domiciled or listed, or have a significant economic interest, in South and South-East Asia countries. The Trust is included under the CPF Investment Scheme-Ordinary Account for investment and is classified under the risk classification of "Higher Risk/Narrowly Focused (Asian Region Stocks)". If you invest in a distributing Class, you may receive distributions at such frequencies as may be prescribed for that Class. Distributions out of capital made by a Class will result in the erosion of capital for investors in that Class.	Refer to Section 1, Section 6, Section 7 and Section 8 of the Prospectus for further information on features of the product.		
Investment Strategy			
 Emphasis on Asian companies (those companies which have yet to gain the attention of the market) demonstrating strong secular growth trends. The Managers' and Sub-Manager's strategy uses a systematic approach in information gathering and analysis to capture periodic market mis-pricing where there are sufficient market signals and data points available. The Managers and the Sub-Manager intends to devote more of their internal 	Refer to Section 8 of the Prospectus for further information on the investment strategy of the product.

	opportunities for significant securities mis-pricing are more abundant.	
•	While the Managers or (as the case may be) the Sub-Manager may from time to	
	time enter into foreign exchange transactions to manage the Trust's currency	
	exposure, in practice over the longer term, the Managers or (as the case may be)	
	the Sub-Manager will generally maintain an unhedged strategy applying	
	tactical, or shorter term currency hedges, only in extreme market conditions.	
•	Borrowings may be effected on behalf of the Trust, of up to 10% of the	
	Singapore Dollar equivalent of the Trust's total net asset value.	
	• • •	
•	Investments in any one corporation or body or issuer will be restricted to 10%

	authorities.	
•	The Managers and the Sub-Manager currently do not invest in derivatives	
	(except for transferable securities embedding a financial derivative) in	
	respect of the Trust although they are permitted to do so. The Trust may	
	invest in derivative instruments from time to time for purposes of hedging	
	and/or efficient portfolio management and may invest in transferable	
	securities embedding a financial derivative from time to time for purposes	
	of hedging, efficient portfolio management and/or optimising returns.	
•	The Managers and (as the case may be) the Sub-Manager currently do not	
	intend to engage in securities lending and/or carry out repurchase	
	transactions.	
•	The Trust's net asset value may have higher volatility characteristics as a	
•		
	result of its portfolio management style.
