### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

Refer to the “Important Information” section and Para 1, 2.2 and 4 of the Prospectus for further information on features of the product.

The Fund aims to provide capital growth by investing in equity and equity related securities of companies in the gold industry.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours.

## Investment Strategy

The Fund invests at least two-thirds of its assets in equity and equity related securities of companies worldwide involved in the gold industry. It will also invest in gold and other precious metals through eligible assets (as described under the definition of “Alternative Asset Classes” in Appendix III of the Luxembourg Prospectus) and gold and other precious metals’ transferable securities. As the Fund is index-unconstrained it is managed without reference to an index.

*Refer to Para 4 and 7.3(c) of the Prospectus for further information on the investment strategy of the Fund.*

The Fund may hold up to 40% of its assets in cash and money market instruments. The Fund will not be exposed to any physical commodities directly, nor enter into any contracts relating to physical commodities.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:**

*Refer to Para 7 of the Prospectus for further information on risks of the product.*

### Market and Credit Risks

#### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

*Refer to Para 7.1 of the Prospectus for further information.*

### Liquidity Risks

#### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame. During this period, the portfolio allocation may be modified to prioritise liquidity. In difficult market conditions, the Fund may not be able to sell a security for full value or at all. This could affect performance and could cause the Fund to defer or suspend redemptions of its Shares.

*Refer to the “Important Information” section and Para 7.1 and 10.1 of the Prospectus for further information.*

### Product-Specific Risks

#### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

*Refer to Para 7.1 of the Prospectus for further information.*

#### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

#### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk. The Fund’s ability to use such instruments successfully depends on the Investment Manager’s ability to accurately predict movements in stock prices, interest rates, currency exchange rates or other economic factors and the availability of liquid markets. If the Investment Manager’s predictions are wrong, or if the derivatives do not work as anticipated, the Fund could suffer greater losses than if the Fund had not used such instruments.

**You are exposed to emerging and frontier markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to interest rate risk.**

- A rise in interest rates generally causes bond prices to fall.

**You are exposed to money market and deposit risk.**

- A failure of a deposit institution or an issuer of a money market instrument could create losses.

**You are exposed to operational risk.**

- Failures at service providers could lead to disruptions of fund operations or losses.

**HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?**

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Company or its administrative agent provided that the directors of the

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Management Company or its administrative agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
