Important Notes:

You are recommended to read the product summary and seek advice from a qualified Prudential Financial Consultant for a financial analysis before purchasing a policy suitable to meet your needs.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

As some of the products have no savings or investment feature, there is no cash value if the policy ends or if the policy is terminated prematurely.

Buying health insurance products that are not suitable for you may impact your ability to finance your future healthcare needs. Premiums for some of the products are not guaranteed and may be adjusted based on future claims experience.
